Multi-Use Table

Group activities, classroom experiments, or why not even a dance party! With the Versityle Flip Top, you can rotate the worksurface and roll away the tables to create room for any activity.

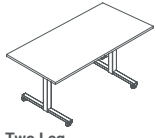

Tables and desks are mandatory for a variety of reasons, but when your space has multiple needs and uses, those essential tables seem to interfere just as often as they help. So, invest in a few of these multi-use tables to enjoy more flexibility and make the most of your spaces.

The Versity Flip Top is designed so the table worksurface can be positioned vertically when the table is not in use. This mechanism allows the table to be placed out of the way to create extra space in your classrooms, maker spaces, touch down spaces, and anywhere else you need a little more flexibility.
