

PERSEUS

Pocket-Style Privacy Screen

After the outbreak of COVID-19, our team set out to create a solution that wouldn't only solve the immediate health and safety need for division but could also be used in the future for other minor illnesses or simple privacy desires.

With the use of brackets and a removeable fabric panel, the Perseus Pocket Screen can effortlessly be installed when needed and stored away when an open space is preferred.

FEATURES

- / Easy to install and uninstall
- / Acoustically transparent
- / Easily stored when not in use
- / A fiber felted, non-woven synthetic alternative to wool

CONFIGURATIONS

Three Panel
24"x 48"

Four Panel
30"x 60"

DEPTH

24" | 30"

WIDTH

48" | 60"

HEIGHT

22" | 24"

The Perseus Pocket Screen acquires its name from its ability to be assembled and removed with ease as desired. Shift between an open workspace and a private desk in minutes. Multiple fabric color options allow you to choose a style that fits in to your existing environment. Available in a 22" height for an unimpeded design with use of monitor arms and cable routing.
